Tips from the Field

Maintaining safe and playable athletic fields takes time, dedication, and more knowledge than most people realize. In an effort to help you make the most of your athletic field, we would like to share some of the helpful tips our recent Fields of Excellence winners shared with us.

“As close to game time as possible, mow the field again to stripe it with the mower. This really seems to make the lettering and lining pop.”

John Blatter
Barnsville Exempted Village School District
Barnsville, OH

“Since we don’t have an aerator, I have put thousands of Night Crawlers (worms) on the field over the years. They do one heck of a job of aerating.”

Bob Kesterke
Benton Harbor High School
Benton Harbor, MI

“We soil test each field at least once per year to make sure we are maintaining proper levels as needed for optimal growth.”

Jay Ratcliffe
Botetourt County Parks, Recreation & Tourism
Fincastle, VA

“The most important thing that we do to keep our natural fields in excellent condition – with over 1,000 hours of use – is to have a consistent aeration program. Helping to reduce the compaction, stimulate root growth, improve drainage and playability are all goals that are accomplished by having a good aeration program.”

Brian Winka, CSFM
City of Chesterfield
Chesterfield, MO

“We have our soil tested annually and go over our herbicide and fertilization plan together with other sports turf professionals in the area.”

Clay Hyatt
Franklin High School/Franklin Parks & Rec
Franklin, VA

“Ask your coaches for input. They want to be a part of your success!”

Josh Carico
Harrisonburg High School
Harrisonburg, VA

“The proper height of cut and turfgrass selection is crucial for sustaining wear tolerance.”

Andrew Socie
Huntingdon Area School District
Huntingdon, PA

“I am constantly communicating with school athletic directors, coaches, and other user groups. I keep in contact with them to figure out how to best perform maintenance on their fields without disrupting games/practice.”

Michael Murphy
Iowa City Community School District
Iowa City, IA

“Communication with all parties involved with the field is very important. This allows for the best coordination of maintenance practices.”

Kyle Harris
Monmouth University
West Long Branch, NJ

“At least once a month we aerate the fields. When we aerate, we also seed, fertilize and add any other soil conditioners needed.”

Peter Thibeault, CSFM
Noble & Greenough Schools
Dedham, MA

“We use growth blankets on goal mouths during the spring, fall, and winter when temperatures drop so we can get those areas recovered.”

Shaun Card
Plain Township Parks Department
Canton, OH

“I feel aggressive core aeration, after the fall season and in early spring, combined with proper mowing practices to promote a thick stand, irrigate when necessary to promote deep rooting, and a solid fertilizer maintenance program are all beneficial.”

Keith Lehman
Pine Grove Area Schools
Pine Grove, PA

“It seems like a no brainer, but talking with other turf managers and industry professionals can be a valuable tool in field maintenance. Turf managers at every level are willing to help out, and networking with them can help avoid mistakes others may have made.”

Nick Lievens
Purdue University Soccer Complex
West Lafayette, IN

“Plan out everything in advance and make backup plans if weather is going to be an issue. The more you plan, the easier it is to make adjustments and still be productive.”

Robert Sedlak
South Bend Cubs
South Bend, IN

“Deep tine aerification is performed every other year using an 8” side eject tine. In general, a 5-6” coring depth is usually achieved, and aerification occurs from at least two or three different directions to ensure adequate coverage.”

Kurt Reynolds
Wheeling High School
Wheeling, IL

What's our game plan?

We're in business to reduce or eliminate frustrations associated with athletic field painting and maintenance. Our sole focus is on your fields, and producing a full set of highly specialized products that improve your satisfaction.

Customers, new technologies, product innovation and environmental awareness all fuel our commitment to deliver the highest quality products in the industry.

Pioneer is proud to have been recognized as a researcher, developer and producer of industry-leading paint formulas for just about any sport, occasion or special event you can hold on synthetic turf and natural grass fields. We match those products with a commitment to a deep and broad array of field marking equipment, stencils, custom logos, maintenance equipment, athletic accessories and antimicrobial coatings.

In everything we do, the ingredients used to formulate our products will be chosen specifically to accommodate the needs, requirements, and well-being of our customers.

It all boils down to this: It's your job to make your field, facility and team look and operate like a champion, and it's our job to help you get there.

You'll find the tools you need right here within the pages of this catalog.

Environmentally-Friendly Field Paints

Zero-VOC's. Zero compromise. Brighter, "greener", better-performing field marking paints.

Hear it Straight from Our Customers.

"We used Brite Stripe Ultra-Friendly the other day on our fields. I was impressed by how much brighter it was when we applied it. But I was really impressed by how much longer it lasted."

"Normally we have to touch-up the fields after playing 4 games over a 2-day period here in the desert sun, but we were able to play 6 games over 3 days and the field still looked good enough for competition."

George Schadegg
Sports Specialist
Special Projects and Construction

Marine Corps Air Ground Combat Center
Twentynine Palms, CA

"Great news! I just met with the south campus grounds crew. They are striping football fields today with the new Ultra-Friendly paint and the crew likes that the paint is nice and bright!"

Raul Bueno
San Jose
State University
San Jose, CA

"We are always looking for more environmentally conscious ways of doing things. A paint with zero VOC's made our decision easy."

"With the brightest lines and less frequent painting, Brite Stripe Ultra-Friendly saves us time and money."

Peter Thibeault, CSFM
Director of Buildings and Grounds
Special Projects and Construction

Noble and Greenough School
Dedham, MA

The World's First Line of VOC-Free, EPA Recognized Field Marking Paints

Ultra-Friendly proves that the grass can be greener. They are the turf industry's first VOC-free paints, and only to receive EPA recognition. Ultra-Friendly's "Safer Choice" rating comes as the result of a pioneering partnership with the Environmental Protection Agency to formulate products with environmentally preferable chemistry. It's a dedication you'll appreciate on the field and off.

Environmental Excellence Has a Brighter, Higher Standard

Get outstanding results without environmental compromise. On top of the brightness and durability you expect from Pioneer paints, our Ultra-Friendly line adds proprietary formulations that combine to leave users satisfied and the fields they manage greener than ever.

In Everything We Do, ingredients matter.

So much goes into effectively managing a great athletic surface. That's why every Pioneer product is engineered from the ground up to ensure that only the right ingredients are included. The individual components and qualities of every paint, striper, groomer, stencil and antimicrobial agent play into your results. Whether your task is to mark a field for a year or just one event, count on Pioneer to provide the right components that make it one of your best looking and least difficult jobs yet.

Development lab work begins. Initial contact made with Environmental Protection Agency (EPA) concerning the Design for the Environment (DfE) program.

Brite Stripe® Ultra-Friendly submitted to the EPA for DfE consideration.

Pioneer contracts with and submits data to an EPA affiliated laboratory.

Pioneer writes white paper to detail the state of the industry for the EPA.

Dr. Grady Miller, professor and turf grass specialist at North Carolina State University (NCSU), submits study to the EPA DfE program.

Brite Stripe® Ultra-Friendly receives DfE recognition.

Pioneer launches program to create new pigmenting systems that are zero VOC and extremely environmentally friendly.

GameDay® and StarLine® UF submissions made to the EPA DfE program.

GameDay® and StarLine® UF recognized by the EPA DfE program.

Ultra-Friendly's blue pigment is approved by the EPA

EPA updates DfE program name to Safer Choice.

2007

2016

Brite Stripe® Ultra-Friendly

Thousands of customers agree... Brite Stripe Ultra-Friendly is Brighter, Whiter and Longer-Lasting.

The same great performance as you've come to expect from Brite Stripe with Zero VOCs.

- Ultra-Friendly to the environment and durable
- Dilutable up to 3:1
- Available in Airless & Pre-Mix

GameDay® Ultra-Friendly

When your game is on the line.® GameDay gives your field premium performance at an attainable price.

- Recognized by the U.S. EPA for its NO-VOCs and safer chemistry
- Mixed with a higher concentration of premium pigment and optical brighteners than other natural grass marking paints
- Dilutable up to 1:1
- Available in Airless and Pre-Mix

StarLine™

Quality, ease and performance. VOC-free field marking paint designed for the StarLiner™ electric field striping machine.

- The StarLine Ultra-Friendly field lining system is the easy, affordable, green way to produce crisp, bright lines
- StarLine paint comes in a 2-1/2 gallon, resealable and recyclable container

America's #1 Athletic Field Marking Paint

Not standard. Industry standard.

Proven each year at every level of sports... From Friday nights under the hometown lights to Sunday afternoons in professional stadiums.

A Brite Stripe®

Brite Stripe is the number one choice at the pro, collegiate, high school, and recreational levels throughout North America because it delivers an MVP performance every time.

- The go-to premium paint for those who expect a long-lasting performance and bright field markings
- High flying colors that are bright and durable even when diluted
- No harm to grass or its growth
- Dilutable up to 3:1

AVAILABLE:
metallic and
fluorescent colors
Call 800-877-1500 for
more details

Brite Stripe® Colors:

Custom colors available.

B Brite Stripe® Airless

Many of our customers claim that Brite Stripe Airless is the brightest line they've ever seen.

- Designed exclusively for airless striper applications
 - Optimized viscosity for spraying through airless machines without diluting
 - Contains a slight blue tint for whiter, brighter, lines
- Available in standard and custom colors

Brite Stripe® Chalk

- A very temporary marking paint for natural grass
 - Perfect for short-term special events, camps, drills or instances when a quick field turnaround is needed
 - Removes with water, rain, or over time with normal wear
- Available in all standard and custom Brite Stripe colors

C Brite Stripe® Pre-Mix

The same great features you expect from Brite Stripe, but already pre-diluted.

- Viscosity optimized for spraying
- Designed to adhere to grass blade better than paint simply diluted 50/50

Available in standard and custom colors

Brite Stripe® Temporary

- A temporary marking paint for natural grass
 - More durable than chalk but less than other field marking paints
 - Perfect for special events or games
- Available in all standard and custom Brite Stripe colors

Natural Turf Field Marking Paint

GameDay®

When your game is on the line.®

- A top-of-the-line field marking paint at an attainable price
- Mixed with a higher concentration of super premium pigment and optical brighteners than other natural grass marking paints
- Eye-pleasing optic whites and fan-stunning custom color matches
- Also available as GameDay Pre-Mix and Airless
- Dilutable up to 1:1

GameDay® colors are customized to the specifications of each individual customer.

GameDay® Wheel-to-Wheel

- A variation of our super-premium Game Day paint that is formulated with a special viscosity for wheel-to-wheel line marking machines.
- Popular on soccer pitches, rugby fields, and grass tennis courts
- Ready to use, no need to dilute

GameDay® Quick Cure

- A variation of our premium Game Day paint that is specially designed to cure faster and will not rewet
- Alternative for locations with higher humidity or heavy dew
- Ready to use, no need to dilute

Hampden-Sydney College
Hampden Sydney, VA

MAX™ TKO

Knocks Out the Competition.

For large jobs that need to stand out, MAX TKO is the paint for you.

- Highly concentrated premium athletic field marking paint
- Provides long-lasting, brilliant lines and logos
- Dilutable up to 5:1

MAX™ TKO Colors:

MAX™

The Brilliant, Unbeatable White.

MAX combines a dense and rich formula with great brighteners for closeup-ready results.

- White lines that are up to 500% brighter
- Exclusive white blend containing 150% more prime hiding pigments
- An affordable premium paint
- Dilutable up to 4:1

Match Play™ Turf Colorant

Painting vs. overseeding? Match Play Turf Colorant saves time, money and water.

Consistent Turf Color

Match Play colors allow you to choose consistent colors to maintain contrast between greens, collars, tees and fairways.

Water Conservation

Match Play colored turf requires far less water than overseeded perennial ryegrass.

No Transition Problems

Bermuda grass will green up sooner and more consistently in the spring without competition from perennial ryegrass and poa trivialis.

Sustain a Stronger Strand

Overseeding over long periods of time can create a weaker strand of bermuda grass.

Lower Maintenance Costs

Eliminate direct cost of seed as well as the indirect maintenance costs of mowing, fertilizing, watering and applying herbicides and pesticides.

Avoid the transition period with the company that is #1 in turf paint. Match Play turf colorant is more durable, affordable, and offers a variety of natural colors.

Match Play™ Turf Colorant

Introducing an array of turf colorants made specifically for golf courses as an alternative to overseeding with perennial ryegrass. Our colors were developed through a combination of academic research and practical application, creating consistent colors that will not fade to blue.

Match Play™ Temporary

- Turf dye for those who overseed with perennial rye grass
- Temporary green color to bridge the gap during the grass transition period
- Concentrate available in 1 gallon pail

MatchPlay™ Colors:

Field Marking Paint Accessories

A Paint Mixing System

- Allows proper and thorough mixing of field marking paint at any dilution rate
- Large, 55-gallon capacity tank with 110 volt motor cuts your prep time so you can give more attention to your field
- Translucent container for better paint visibility
- Fiberglass tank and lid with easy flow gate valve allows for years of trouble-free use
- Heavy-duty, stainless steel stand allows for dispensing into 5-gallon pails
- 1/2 HP mixing motor features ground electrical cord with switch
- Die cast aluminum mixing blades and stainless steel shaft and coupling
- 5-year limited warranty on tank and 2-year warranty on motor

MIX55

B Paint Mixing Blades

- Small blade made of 304 polished stainless steel, and designed for jobs in 1-3 gallon pails and fits any 1/4" electric chucked power tool
- Large blade made of 304 polished stainless steel, designed for jobs in 5-10 gallon containers, and fits any 1/2" electric chucked power tool

SMALL - F15, LARGE - F21

C Mixing System Pump

- 6' hose with 3/4" gasoline-style shut off valve
- Secures directly to the pump of the Pioneer mixing system allowing direct transfer of paint to field marking machine tank or pail

MIX55P

D Large Paint Funnel

- 13" opening allows you to dispense your paint with less mess

FUNNEL

E Paint Strainers

- 100% nylon with elastic garter-top for 1 & 5 gallon pails allows for premium paint mixture
- 25 Per Box

1-GALLON - PS50, 5-GALLON - PS25

F Reusable Paint Strainer

- Strainer inserts lie on top of any 3 or 5 gallon open-head pail, allowing valuable material to be poured through easily while removing unwanted coarse particles.
- The patented lip design ensures that the strainer always stays in place
- A great tool for cleaning parts over a pail, while capturing cleaning solution below

PS5

G Premium Lid Remover

- This lightweight aluminum lid opener allows you to open paint pails in seconds

LIDR

Aerosol Field Marking Paint

Quick Stripe Aerosol Striper

- Works with paints in our standard size aerosol can
- Large, 10" semi-pneumatic wheels and wide axles provide a smooth roll

QSM

MAX Aerosol Striper

- Works with paints in our jumbo size aerosol can
- Large, 10" semi-pneumatic wheels and wide axles provide a smooth roll

MVPM1

Premium Aerosol Striper

- 8" pneumatic wheels roll smoothly over rough fields and provide crisp striping
- Works with paints in our jumbo size aerosol can

PVIPPM

Premium 2-Can Aerosol Striper

- Cover both sides of the grass blades in a single pass
- Designed with pneumatic wheels for our jumbo size aerosol can

MVPM2

Use with:

New Mexico State University
Las Cruces, NM

Aerosol Marking Stick

- New design for increased durability and usability
- Available for both standard & jumbo size cans
- Longer and easier than ever before with a ergonomic grip and responsive finger-tip trigger
- Comfortable, free-hand marking
- Gets you closer to stencils
- Enjoy lightweight, sturdy construction

MAX, PVIP & GAMELINE - PSTICK
QUICK STRIPE - QSTICK

Aerosol Marking Pistol

- New design for increased durability and usability
- Available for both standard & jumbo size cans
- Comfortable, free-hand marking
- Gets you closer to stencils

MAX, PVIP & GAMELINE - PVIPMPP
QUICK STRIPE - QSMPP

Breast Cancer Awareness Stencil
& Paint Kits available. (See pg. 25)

MAX™ Aerosol

Exclusive MAX formula comes with proven MAX performance in a jumbo aerosol can.

- MAX is the solution for those who want the brilliance of MAX liquid bulk paint with the convenience of an aerosol
- MAX uses premium pigments and a rich formula for more prime hiding
- No harm to grass or its growth

Available in 21 high-performance colors.

Quik Stripe®

Count on Quik Stripe, the industry-leading aerosol marking paint in a standard size can for those who care most about their fields.

- So ready-to-use, and quick drying, it's built right into the name
- The best in brightener technology with no clogs, waste or mess
- Crisp, clear lines even in severe weather
- No harm to grass or its growth

Available in 21 high-performance colors.

PVIP™

The versatile aerosol paint in a jumbo size can outfitted with value, performance, brightness and paint crew satisfaction.

- Save time and money, plus get 22% more paint than our standard size can
- Durable and dependable on game days
- All without clogs, waste and mess
- No harm to grass or its growth

PVIP available in Arctic White only.

MAX™ Chalk

Temporary marker for natural grass and synthetic turf. Tested for use on synthetic turf.

- Jumbo size can that's perfect for creating temporary field markings for camps and drills or other temporary marking, even on concrete
- Can be sprayed with a Pioneer Aerosol Stripping Machine, Marking Stick, Pistol, or by hand.

MAX™ and Quik Stripe® Colors:

MAX™ Chalk Colors:

Field Painting Layout Tools

PLeeFix™ Ground Markers

- Athlete friendly & UV-resistant synthetic turf tufts
- Fibers available in yellow, blue, red, orange, white, and green
- Recycled polypropylene spiral cone base
- Use to mark sprinkler heads and other potential field hazards
- Eliminates the need to re-measure natural grass fields prior to painting
- Highly visible and mower resistant

Orange - PFO25; White - PFW25;
Blue - PFB25; Yellow - PFY25;
Red - PFR25; Green - PFG25;
Mixed Box - PFM25

Marksmart™ System

- Eliminates the need for repeated field measuring and staking
- Sockets permanently locate and identify line intersections
- Simply insert pegs into sockets and attach string
- Follow string lines to paint field
- Available systems: basic, football, intramural and soccer
- Individual components also available

FOOTBALL - MSFOOT; SOCCER - MSSOCCER;
BASIC - MSBASIC; INTRAMURAL - MSINT

Heavy Duty Lining String

- 1/8" hollow braid monofilament polyethylene string
- Rugged and durable
- Available in 500 ft. and 1,200 ft. lengths

LM500C, LM1200C

Basic Lining String

- 1,100 ft. of #30 premium twisted nylon twine
- Lightweight, but strong
- Available in white, yellow and pink

White-TWINE
Yellow-TWINY
Pink-TWIMP

Battle Boards

Heavy-duty, yet highly flexible plastic boards used for masking while painting precise, straight lines or sharp, crisp curves on the field.

4' x 1' - BB4

EZ Stringer (Power String Winder)

- Durable solid aluminum spool and steel rod backbone
- Ergonomic design maximizes productivity by minimizing operator fatigue and discomfort
- Handle on spool for fast field layout
- Includes: 1 Easy-Stringer, 1 Pair of Gloves, 1 Drill Attachment, & 1000 or 3000 feet of string pre-spoiled

EZWINDER, EZWINDER3

Basic Cord & Reel

- Easy-to-use guide for the layout process
- Utilizing the kit will cut your layout time significantly
- Kit comes with stakes and hammer
- Available for football, baseball, soccer field hockey, boys and girls lacrosse and general use with 500' or 1200' of cord
- Cord and reel lining stakes also available separately

Cord & Reel-LMN500, LMN1200
Stakes only-STAKELM

A 400' Measuring Tape

- Heavy-duty polyethylene case
- Easy-turn rewind system
- PVC coated fiberglass, double-sided tape shows feet and meters
- Other sizes available

MT400

B 330' Measuring Tape

- 330' durable nylon-coated steel
- Sturdy construction

MT330S

Grounds Maintenance

Turf Gro™ Blankets

- Helps accelerate seed germination, allowing athletic fields to recover from high usage
- Helps protect turf, promoting stronger and healthier root growth
- Made of high strength, lightweight polypropylene fabric
- Helps to minimize damage from winterkill and wind
- Extends growing season allowing for earlier green-up of sports fields
- Available in standard 2 oz. or premium 3.2 oz.
- Has grommets and hemmed edges
- Premium Turf Gro Blanket includes storage bag
- Stakes available for securing position

Hot Shot

- Super heavy-duty construction features aircraft aluminum with high composite components
 - Fully adjustable flow control from a strong jet stream to a mist
 - Quick on/off setting
 - 1" Inlet Thread
- HOTSHOT**

Tracker™ Traveling Sprinkler

The portable irrigation machine.

- High quality materials
- Minimal labor to operate
- Adjustable speed control for easy water adjustment
- Standard full or part circle sprinkler with robust turbine drive
- Ideal for irrigating athletic fields, golf courses and parks

TRACKER

A

A Turf Gro™ Blanket Stakes

- 9" safety yellow stake is highly visible
- Sturdy steel construction with engineered bend to keep your blanket in place

Ultralite

- A multi-purpose, lightweight, rigid 1" diameter high pressure irrigation hose
 - Meets the needs of golf, sports turf and all irrigation market applications.
 - Abrasion resistant, all polyester cover with polyurethane coating
 - Special helical interior reinforcement to retain rigid shape.
 - Available in 50', 75', and 100' lengths
- 50' - HOSE50HP, 75' - HOSE75HP, 100' - HOSE100HP

1" Clear Water Hose

- Reinforced with spiral polyester yarn and longitudinal tracer yarns to reduce elongation under pressure
 - Superior weather, ozone, and ultraviolet resistance
 - Clear color allows visual confirmation of product flow
 - Working Pressure rated @ 125 PSI and Max. Burst Pressure @ 500 PSI
 - Available in 50', 75', and 100' lengths
- 50' - HOSE50C, 75' - HOSE75C, 100' - HOSE100C

1" Heavy-Duty Hose

- For high volume water uses, such as athletic fields, golf courses and parks
 - Maximum industrial reinforcing
 - Kink resistant quality
 - Available in 50' and 100' lengths
- 50' - HOSE50, 100' - HOSESM

GameLine® Removable System for Synthetic Turf

Proven performance. **Proven** removability. **Proven** quality.

SPECIFICATIONS	
For use on	Infilled polypropylene & polyethylene turf systems
Coverage per gallon	250 - 350 ft. x 4 in. (varies by speed and substrate)
Ideal air temperature at application	50° – 90° F
Applied by	Airless striper set between 700-1000 psi
Recommended tip size	.317 or .319
Dry time @ 70° F	Dry to touch in 1 hour. Completely dry in 48 - 72 hours.*
Removal	Blitz remover solution, agitation, and clean water

GameLine System Process

1. Paint

2. Apply Blitz or Blitz HT GameLine remover solution.

3. Agitate.

4. Rinse with water.

**High humidity and / or cool temperatures will result in longer dry times*

Pioneer's GameLine is the Only Synthetic Turf Paint Recommended by Every Major Synthetic Turf Company.

GameLine® Clear

- A clear, removable, bulk synthetic turf paint
- Used as a base coat before painting over inlaid lines and logos to prevent staining and make removal much easier

GameLine® Fast Dry

A special formula designed to dry faster than traditional GameLine® in cool, damp environments

GameLine® Quick Release

- Special formula for short term events and faster field conversions
- Slightly less durable than regular GameLine®, but more durable than standard GameLine aerosol
- Will not bake on in hot, dry weather

A GameLine®

GameLine is the perfect call when you need quality gloss paint that lasts one or two games and removes easily.

- Highly effective, industry proven removable synthetic turf painting system
- Maximum performance under the spotlight
- Ideal for short-term and long-term applications
- Removes easily with Blitz™ GameLine Remover Solution
- Ideal for infilled turf systems
- Will not bind fibers

Bulk Synthetic Turf Paint Colors:

A Blitz GameLine® Remover Solution

- Blitz GameLine Remover Solution is designed to work with GameLine Removable Paint
 - Easily and quickly remove synthetic turf paint lines, logos or stencils
 - Just apply, agitate with Blitz Remover Machine, then wash away with water
- 5 GAL - TB05, 55 GAL - TB55

B Blitz HT GameLine® Remover Solution

- Blitz HT (High Temp) is designed for the hours when field temps rise
 - Just apply, agitate with Blitz Remover Machine, then wash away with water
 - Blitz HT Remover Solution is designed to work with GameLine Removable Paint
- 5 GAL - TB05HT, 55 GAL - TB55HT

Blitz Walk-Behind Remover Machine

- Easy-to-use brush engagement
 - 5.5 HP Honda engine
 - 7 Adjustable positions for height of brush
 - 8" Pneumatic wheels
 - Padded handle collapses for easy storage and transport
 - Designed to work with GameLine paint system
 - Great for top dressing small areas on infill
- TRMWB

C GameLine® Aerosol

The only industry-proven removable aerosol paint for synthetic turf fields.

- Convenient, easily removable high gloss paint with the quality and durability of a permanent paint
- Ideal for short-term applications
- Removes easily with Blitz or Blitz HT GameLine Remover Solution
- Can be applied from 25° - 90° F
- Dry to touch in 5 min. at 70° F. Completely dry in 1 hour

* Keep cans warm if painting in cold weather

WHITE - GLAW12, YELLOW - GLAY12,
ORANGE - GLAO12, RED - GLAR12,
BLUE - GLAB12, BLACK - GLBK12,
PINK - GLAP12, TURF GREEN - GLATG12, DARK
TURF GREEN - GLADTG12

GameLine® Clear Aerosol

- A clear, removable aerosol synthetic turf paint
- Used as a base coat before painting over inlaid lines and logos to prevent staining and make removal much easier

D MAX™ Aerosol Chalk

- Temporary marker for natural grass or synthetic turf.
- Jumbo size can be used in our new GameLine Aerosol striping machine

GameLine® Aerosol Colors

MAX™ Chalk Colors

"Before we started to use Pioneer's GameLine system, it took a large crew multiple hours of scrubbing on their hands and knees. Now, our crew is able to remove all of the paint in only two hours, with absolutely no ghosting. The simple three-step removal process saves us time and a lot of energy".

Randy Philipson
Director of Engineering & Operations
Mercedes-Benz Superdome
New Orleans, LA

Durable Paint for Infilled Turf

ExtremeLine™

- Preferred choice for long-lasting applications on infilled synthetic turf systems
- Provides a uniform, high-gloss field marking with less paint build-up
- Extremely durable and non-removable

SPECIFICATIONS

For use on	Infilled polypropylene & polyethylene turf systems
Coverage per gallon	250 - 350 ft. x 4 in. (varies by speed and substrate)
Ideal air temperature at application	60° – 90° F
Applied by	Airless striper set between 900-1000 psi
Recommended tip size	.317 or .319
Dry time @ 70° F	Dry to touch in 1 hour. Completely dry in 48 - 72 hours.*
Removal	Non-removable

**High humidity and / or cool temperatures will result in longer dry times*

**See page 12 for colors*

SeasonLine®

- Designed to remain on your field throughout one sports season
- Wears off over time, depending on weather and traffic
- Quality, gloss paint that stands up to rugged play
- For use on infilled turf systems

SPECIFICATIONS

For use on	Infilled polypropylene & polyethylene turf systems
Coverage per gallon	250 - 350 ft. x 4 in. (varies by speed and substrate)
Ideal air temperature at application	60° – 90° F
Applied by	Airless striper set between 900 - 1000 psi
Recommended tip size	Airless: .317 or .319
Dry time @ 70° F	Dry to touch in 1 hour. Completely dry in 48 - 72 hours*
Removal	Over time with normal wear and weather. SeasonLine remover solution available if needed, but will require significant time & effort

**High humidity and / or cool temperatures will result in longer dry times*

**See page 12 for colors*

Durable Paint for Nylon Turf

Titan®

- Exclusive formula contains Halogen® 2000 for outstanding brightness
- Creates long-lasting lines
- Maintains flexibility and crisp, bright lines throughout the season and severe weather
- Dries to a smooth, flexible coating which is less abrasive to players and less slippery than other turf paints

SPECIFICATIONS

For use on	Nylon turf systems
Coverage per gallon	250 - 350 ft. x 4 in. (varies by speed and substrate)
Ideal air temperature at application	50° – 90° F
Applied by	Airless striper set between 900 - 1000 psi Low-pressure at 40 psi (paint must be diluted)
Recommended tip size	Airless: .317 or .319 Low pressure: 9504
Dry time @ 60° F	Dry to touch in 1 hour. Completely dry in 3 days
Removal	Non-removable

**High humidity and / or cool temperatures will result in longer dry times*

**See page 12 for colors*

Titan® Extreme

- Glossy paint for nylon surfaces that mimics the feel of the turf itself
- Softer, more flexible paint that evenly coats the turf blades
- Designed for long-term applications and extreme durability

P-REX™: Game-Changing Innovation

True One-Person Paint Removal and Extraction

“The P-REX remover and extractor allows for quick and efficient removal of logos and lines, without any wear and tear on the turf. The rubber infill displacement is minimal and I was very pleased at how little infill actually gets extracted. For a facility with no floor drains like us, this is the perfect piece of equipment. I wished we had gotten one sooner.”

Thomas McAfee
Alamodome
San Antonio, TX

“It is much faster and better than any other machine we have used and well worth it. Logos that took us hours to remove are cleaned off in minutes and the field is ready to paint shortly after that.”

Chad Wilken
Mercedes-Benz Superdome
New Orleans, Louisiana

P-REX™

- An innovative design that turns synthetic turf paint removal into a one person job
- Saves man-hours by facilitating all three steps of the GameLine® removal process: applies remover solution, agitates, sprays with water and extracts
- A perfect tool for those with frequent field changeovers

Vehicle:

- Single 852 cc engine
- Can apply Blitz, agitate, rinse and extract simultaneously or in any combination
- 60" cleaning and extracting path
- Highly maneuverable, zero-turn platform that can operate forward and reverse while cleaning and extracting
- 9 ½ feet long
- All electric control systems

Extraction System:

- Custom designed extraction plate
- Maximizes paint extraction
- Minimizes infill extraction
- Dual intake manifold for increased vacuum lift
- High rise vacuum bar for easy transportation
- Easy drain system

Brushes:

- Custom brushes with a blend of natural and synthetic fibers
- Quick Release brushes for easy cleaning

Water system:

- Quick Release spray nozzles
- Wheel rinse to all four tires to eliminate tracking

Alternate Line-Remover Brush

Synthetic Turf Maintenance Equipment

A Field Crewzer™

Pioneer's Field Crewzer is the premier sweeper that removes litter and debris while returning infill back into the field.

- A robust, counter-rotating brush lifts surface debris into a primary hopper
- Infill granules are returned to the surface while debris is shaken into one of two easily-removable hoppers at the rear of the machine
- Can be pulled by most golf carts and utility vehicles
- The Field Crewzer is lifted up by electric actuator for transporting

CREWZER

B Crewzer™ Junior

- Features a ground-driven rotary brush that picks-up surface debris and minimal crumb rubber infill
- A mechanical, vibrating screen separates debris and infill
- Infill is evenly redistributed onto the field
- Debris is collected in an easily removable hopper

CREWZERJR

Shown here with front-end spring tine rake

GreensGroomer®

The GreensGroomer is a synthetic sports turf groomer that works with all infill material.

- Patented brush design with super-duty brushes lifts turf fibers, leaving them in a plush, upright position
- Synthetic brushes resist wear and will not rot
- Optional Spring Tine Rake consists of 3 rows of 28 tines, spaced 7/8" apart for thorough coverage that combs through infill, relieving compaction and assuring a soft, level playing surface. Rake option includes follow-up brush and magnet hitch kit.
- Spring tine rake now placed on front end of groomer
- Optional 6' tow-behind magnet available for collecting ferrous material hidden in the field and infill

GREENSGROOMER - GG920SDE
 SPRING TINE RAKE OPTION - GGSTR4
 MAGNET OPTION - GGMAG
 EXTENSION WINGS - GG924SD

C Integrated-GreensGroomer®

- Same brush features as the standard unit
- Integrated unit comes with built-in tine rake that features a handle unit for tine adjustment
- Follow-up brush and magnet hitch kit included

GG926

LitterKat®

- Ground driven sweeper designed to remove debris from the turf surface without displacing infill material
- 12-volt actuator for easy brush depth adjustments
- Dual 12-volt vibrators in the collection baskets allow any infill material that is collected to be quickly returned to the field
- All aluminum construction with a durable powder coat finish allows the LitterKat to be towed by most utility vehicles
- Equipped with a powerful 6' tow-behind magnet that pulls unwanted ferrous material from deep within the infill

LITTERKAT

Synthetic Turf Accessories

the Gawryla Grip

- Synthetic turf lining system firmly anchors string while painting lines
- Unlike nails or stakes, Gawryla Grips don't puncture or damage synthetic turf
- Made of robust, high strength-to-weight ratio PVC
- Carefully designed by a sports turf manager
- Manufactured by Pioneer Athletics

"Our crew has been painting lines on all sorts of artificial turf for over 15 years now, it has always been frustrating to stretch strings for line painting on artificial turf. The Gawryla Grip has been a true breath of fresh air for line stretching. From the first time we used it everyone involved couldn't believe how simple it made attaching the line to the turf for painting. AWESOME PRODUCT!"

*Paul Curtis,
Groundskeeper, Beaver Stadium
Grounds Crew, Penn State*

"The easy grip handle makes stretching strings easy. Once it's stretched all you have to do is set the grip down, give it a small push and you're ready to paint"

*Mitch Tracey,
Sports Turf Manager, Campus Rec
Service, University of Maryland*

mPact-4-Turf

- Powered by AEGIS Microbe Shield® technology.
- Imparts a durable, invisible barrier which is protected from odors and stains caused by bacteria, mold and mildew.
- Ideal for treating heavy traffic areas like sidelines and coach's boxes. Designed to last for up to 30 days between applications

EPA
Registered

Titan T.G.

- 5 gallon pail of highly dilutable, one-step disinfectant
- Kills harmful microbes that can cause disease on plastic surfaces
- EPA registered, neutral pH for player safety
- Also available in 55 gallon packaging TTG05

Synthetic Turf Repair Kit

- A two-component, 100% epoxy adhesive designed for high strength repairs of artificial turf
- Meets FIFA standards for bond and shear strength
- Kit contains 6 cartridges, 6 static mixers, 1 dual-cartridge assembly gun, 1 tool box

STRK

Premium urethane
artificial sports-turf
repair adhesive

Ultrabond® Turf 527

- A moisture-curing, one-component, polyurethane adhesive specifically designed for the repair of existing outdoor turf
- For interior and exterior applications, excellent weather resistance.
- Meets FIFA requirements for bond and shear in sports-turf applications.

STRC

Airless Field Marking Machines

BRITE STRIPER® 3000

A Brite Striper® 3000

B Brite Striper® 3000 SP

Power and versatility in an affordable airless sprayer. Pioneer's airless strippers offer the newest advances in industry proven airless striping technology, the highest level of performance, and a model to fit every budget.

Both models feature:

- Sturdy and lightweight frame
- Phenomenal reach thanks to a 50' hose for logos and wide-area spraying
- Smooth ride, even on rough fields, thanks to large pneumatic tires and optional floating spray box
- Steady, adjustable air pressure from 0-3000 PSI
- Warranty-backed Honda GX160 engine

Brite Striper 3000 SP (Self-Propelled) adds:

- Breakthrough belt-and-chain drive system and adjustable speed to deliver great, straight lines
- Optional 15-gallon paint hopper- 2708

BRITE STRIPER 3000 - BS3000
BRITE STRIPER SELF PROPELLED - BS3000SP

C Brite Striper® 7000

- The Brite Striper 7000 is a ride-on airless paint striping machine
- Front wheel drive with rear steering
- 30" seat height & center spray gun provides maximum visibility to existing lines or layout string
- Fully adjustable, 0-3000 PSI pump pressure
- Floating spray gun for maintaining line width over rough terrain
- Adjustable, tilt steering column
- On-board 2.5 gallon purge tank lets you clean spray gun and hose 'in-the-field'
- In-line filter keeps you running without clogs.
- Quick-release clamp and 25' hose allows you to remove the spray gun to spray stencils, small curves and hard to reach areas
- A 14 hp Subaru-Robin OHC engine with electric start
- 50 gallon poly tank: stripe up to four football fields or seven full-size soccer fields with one filling
- 36 month warranty

BS7000

Graco® Airless Field Marking Machines

Pioneer is an authorized Graco dealer and carries a full line of parts, accessories and strippers.

Graco® FieldLazer S90

Spray bright professional lines with the industry's first high pressure battery powered field stripper.

Battery powered simplicity is now combined with Graco's professional, paint saving high pressure technology:

- One button operation - add paint and press the button to start.
- 12V rechargeable, maintenance-free battery - 10 soccer fields or 1 football field per charge
- Eco-friendly - eliminates aerosol can waste, conserves paint & water, no emissions or propellants
- Tilt-N-Pour removable 6 gal. hopper 24N950

Graco® FieldLazer S100

When the ground gets rough, the FieldLazer S100 gets going.

If you've got rough terrain, then take a look at this:

- A tall-wheel, lightweight cart designed for rough terrain
- Easy-to reach operator controls located on the handle, including a safety shut-off switch for shutdown
- A dependable Honda GX35 4-stroke engine

248942

Graco® LineLazer 3400

Meet your new rear-gun-mount specialist. The FieldLazer lives up to its name: 60% less vibration at the spray tip compared to other rear gun mount sprayers makes for precise lines. With the LineLazer 3400 you get:

- The ability to place guns near the rear axle for applying straighter long lines and smooth curved lines
- Better gun visibility
- A reliable Honda GX120 engine

248861

Graco® LineLazer v3900

The high-performance choice for all your striping needs.

- Precise 2-gun performance
- Graco Smart Control system tracks all aspects of your striping job.
- A reliable Honda GX120 engine 17H450

Graco® Line DriverHD

Why walk when you can drive?

Connect the LineDriver HD to your LineLazer V3900 striper and double your striping production. The Line-Driver HD provides:

- Exclusive dual pedal design (patented) for forward and reverse
- Forward speeds to 10 mph (16 km/h), reverse speeds to 6 mph (10 km/h) -change directions instantly for consistent lines
- A reliable Honda GX200 engine 262005

P.H.D. Ultra-Friendly

Specially designed cleaning concentrate for athletic field marking machines. Fast acting P.H.D Ultra-Friendly leaves no soap scum or residue. Keeps athletic field markers clean and bright for better performance and longer life.

4 x 1 gal. - PHDUF4, 12 x 1 qt. - PHDUF12
5 gal. - PHDUF5

Throat Seal Oil

Formulated to prevent paint from drying on the displacement rod, throat seal oil extends the life of throat packings and the piston rod.

8 oz. bottle - 2501

Pump Conditioner

Designed to stop corrosion and paint build up within the airless spray system.

32 oz. bottle - 2502

Low Pressure Field Marking Machines

Brite Striper® 1100

Battery-operated versatility, professional results. Handle all your athletic fields with ease and get the results you want. No need to compromise.

- Premium 12V battery with charger (included)
- 4-position handle
- Fully-adjustable 2" - 8" spray box
- Easy-to-clean, just flush with 5-gallon pail of fresh water
- Draws from 3 or 5-gallon pail
- Semi-pneumatic wheels to guide over rough terrain
- Optional hook up for any Pioneer hand hose

BS1100

Brite Striper® 1400

CO2-Powered Simplicity. Professional performance with simplicity of operation and control - and no gas.

- CO2 powered for about 210 gallons of paint per tank
- 7-gallon stainless steel tank
- 4-position handle
- 24" wand with 12' hand hose
- Semi-pneumatic wheels to guide over rough terrain
- Optional 2-headed sprayer, 12-gallon stainless steel tank upgrade and Power Clean tank cleaning system

7 GALLON TANK - BS1400
12 GALLON TANK - BS1400U

Brite Striper® 1500

The favorite of over 4,000 customers. Universities, high schools, parks and recreation departments, and professional teams rely on their Brite Striper 1500.

- Honda GX100 Engine
- 7-gallon stainless steel tank
- 4-position handle
- 24" wand with 12' hand hose
- Semi-pneumatic wheels to guide over rough terrain
- Optional Power Clean tank cleaning system

Brite Striper® 1600

- Same as Brite Striper 1500 but with an upgraded 12 gallon tank and standard 2-headed sprayer

BS1500H
BS1600

Retractable Spray Gun

25' hose makes spraying logos and wide-area spraying easier than ever and prevents tangling.
0026

No
Pressure
Machine

Wheel-to-Wheel Line Painter

A simple, durable and easy to operate liquid transfer line painter. Paint is transferred from the 15 liter (3.96 gal.) hopper to a 4" wide marking wheel – providing even and accurate lines. The unit features adjustable, steel tube handles and pneumatic tires.

W2W

Brite Striper® 2000

Self-propelled, hydraulic-driven bliss.

With the 2000 you get self-propelled forward and reverse without slippage or pushing.

- Honda GX120 Engine
- 12-gallon stainless steel tank
- Variable speed, hydraulic drive, self-propelled drive system with reverse
- 4-position handle
- 24" wand with 12' hand hose
- Semi-pneumatic wheels to guide over rough terrain
- Optional Power Clean tank cleaning system
- Optional 2-headed sprayer

BS2000HPC

StarLiner™

- Easy-to-use field liner with a long-lasting, rechargeable battery
- “Plug & Stripe” technology - simply plug the custom, self-sealing container into StarLiner and stripe with ease
- Convenience of an aerosol striper with the premium look of Pioneer’s Ultra-Friendly paints
- Optional 6' spray wand attachment

STAR

Learn more about StarLine paint on pg. 3

Star P.H.D. Ultra-Friendly

Clean your StarLiner as conveniently and easily as you paint with it. Star P.H.D. Ultra-Friendly is tailored for simplicity and environmental friendliness. Just pop off the paint box and plug in the P.H.D. Keep your StarLiner looking and working the way it did on day one, and extend its life, with fast-acting Star P.H.D. Ultra-Friendly.

- Specifically designed to offer “Plug and Clean” technology
- Star P.H.D. Ultra-Friendly comes in a resealable and recyclable container
- Recognized by the EPA’s “Safer Choice” program

STARP1

“I love StarLine paint! I stripe several high school fields throughout the area and receive many compliments. StarLine paint is much brighter than aerosols and stands up better on grass. It is more durable, longer lasting, but most of all, it looks more professional than any aerosol I have used in the past.”

John Farmer
Bossier City, LA

“StarLiner operates very easily, from maintenance, to painting to cleanup. I would recommend StarLine paint over aerosol because of the coverage, brightness and durability.”

Mike Wald
Bismarck Park & Rec
Bismarck, ND

Custom Stencils

A Custom Stencils

Some people call it a logo or a team mascot mark. We have the resources to help you make it much more than that. Choose Pioneer, and get athletic stencils as rugged as an all-conference defensive line, with the toughness of 60 mil. polyethylene plastic panels, Poly-Tuff and a variety of other materials to suit your needs and budget. The latest stencil technology is at your disposal, so adding your logo or mascot is easier and more affordable than ever before. Just as importantly, finished products are lightweight enough for one person to handle, made with fewer pieces, pre-marked for quick assembly and easy to clean. It all adds up to years of use and satisfaction. Make your field the most colorful member of the team. Give it distinction and class. Order your custom stencil today. **To get your field stencil going, call Pioneer at 800-877-1500 or email: stencils@pioneerathletics.com**

A

B One-Piece Tracing Pattern

Pioneer's heavy-duty full end zone tracing pattern stencils are fabricated with thick and durable polyethylene plastic and can be folded for convenient storage. Enhance the look of your field by ordering a custom full end zone tracing pattern stencil today.

- 1-piece construction allows for minimal set-up and storage
- Available up to 35' X 80' (call for custom end zone size template quote)
- Durable .006 mil. standard/semi-clear polyethylene plastic
- Vinyl tab grommets (6 standard: 4 corners and one on center of top and bottom)
- Re-usable

CH Base Anchor

- Heavy Duty 1-1/2"
- Available in Hollywood Red and Hollywood Galvanized Steel
- Also available for the 'Bolco System'

RED: ANCHORHHD; SILVER: ANCHORH

CH Base Anchor Starter System

- Base anchoring system requires no digging or concrete
- CH anchors will last 5-10 times longer than traditional ones
- Set includes 1 driver & 3 heavy-duty 1 1/2" W x 18" L anchors

CHSSH

Baseball Accessories

Base Runner Rake

The professional's choice... a field rake with a telescopic handle.

- Perfect tool for grooming infields
- High-grade aluminum alloy head was designed specifically for the sports turf industry
- High, straight edge is excellent for grading, while the rounded teeth are non-gouging
- Double lock telescopic handle easily adjusts from 39" to 70"

12503

Field Rake

Engineered to the specifications of professional baseball grounds crews.

- Extended grading edge designed specifically for leveling
- Rounded teeth for smooth non-gouging raking action
- 66" powder-coated aluminum handle with wrap-around bracing

GM584

Chisel-Tooth Rake

The aggressive chisel-sharp teeth and forward grading edge set this rake apart from the others

- Perfect for penetrating and breaking up hard soils
- Extra-thick teeth hold up to extremely heavy use
- 66" powder-coated aluminum handle and 6" vinyl grip provide maximum comfort

GM576

Pro Turf Lute

This lightweight, heavy-duty lute combines an engineered head design with strong wrap-around bracing and is perfect for spreading gravel or for grading soil.

- Solid aluminum plug in the head-to-handle connection
- Comes with an 82" powder-coated aluminum handle

GM583

7' Double Play Monster Broom

- 7' wide bristle path
- 7' head with A-frame handle
- 3 rows of replaceable 3-1/2" bristles
- Foam padded handle with hooks for storage
- Short teeth for breaking up hard, dry clay
- Bristle side used for finishing

DB7DP

Toolite® Sifting Scoop

Remove debris when top-dressing athletic fields and diamonds.

- Great for screening and sifting rocks and unwanted material during pre-seeding
- 14" x 17" scoop style head with 27" D-grip handle

SFTSHVL

Toolite® Sifting Shovel

Perfect tool for sifting and removing debris when top-dressing athletic fields and diamonds.

- Heavy-duty, lightweight construction
- Strategically placed holes allow for maximum sifting action

GM589

Loop Hoe

Makes light work of regular maintenance on the field.

- Double knife edge rocks back and forth with a push/pull motion
- Excellent for cultivating, aerating and weeding. The blade is also replaceable

HOE

Mud Strainer Attachment
(sold separately)

Field Pump

- Made of high impact PVC
- Non-Sparking
- Will Not Rust
- Self Priming
- Removable Foot
- For non-potable water only
- Includes a 6' hose.

GM590, GM590S (Mud Strainer Attachment)

Tamper

- Welded all-steel head construction
- 1/4" thick base plate
- 1-1/2" diameter, 48"L handle available in steel or fiberglass
- Available in 8"x8" and 10"x10"

8"x8": TAMP8 (steel handle), TAMP8F (fiberglass handle); 10"x10": TAMP10 (steel handle), TAMP10F (fiberglass handle)

Baseball Accessories

Shown here with optional Drag Mat, and Chisel Scarifier

A Pro Groomer™

Restore and maintain infields quickly and easily. Levels, smoothens, mixes and breaks up hard infields.

- Cuts off high spots, mixes and carries the material along, then drops it into low areas where it's needed
- Reduces sliding injuries, water puddling problems, weeds and more
- Available in either manual or electric lift
- Easily adjusts to different towing machines
- No need for hydraulics or 3 pt. hitch
- Saves on labor costs
- Heavy-duty steel construction
- Powder coated finish
- Use on a variety of granular surfaces
- Optional drag mat available (Item: AS58-m, See 'B')
- Other optional attachments include: Chisel Scarifier, Rock Basket, and Spring Tine Rakes

PR72-E

B Drag Mats

- Smooths rough, upturned infield dirt between innings and games
- Tough, flex steel construction
- Includes pull rope and comfortable, wooden handle

6' x 3' - DM72
7.6' x 3' - DM78

C All Star Chisel-Drag™

Pulverize aeration cores on greens, incorporate top dressings, brush/groom greens, de-thatch, aerate, groom baseball and softball infields, groom artificial turf and more.

- Grades, mixes, and smoothens
- Breaks up hard infields
- Save on labor costs
- Reduces sliding injuries, water puddling problems, weeds and more
- Helps control weeds
- Easily adjusts to different towing machines
- Heavy-duty steel construction
- Powder coated finish
- Use on a variety of granular surfaces

AS72-M

PlayersGoal® Sports Equipment

Foul Pole

- Powder coated yellow
- Manufactured from 4" or 6" aluminum pipe and available in standard above ground heights of 15', 20', 30', and 40'
- Utilizes ground sleeves with corresponding caps or a base plate mounting system for a semi-permanent install

Batting Tunnel

- All standard batting tunnels come with a black #36 nylon 1-3/4" square mesh net with entrance/exit, block pulley system, corresponding ground sleeves with caps and net extension arms to ensure the net remains taught and secured to the ground
- Available in both a cantilever and overhead style

Baseball Accessories

RED Infield Conditioner

No other conditioner in the industry has higher absorption rates or lasts longer on your field.

- Provides maximum drainage of rainwater on your athletic fields
- Creates a capillary system that absorbs large amounts of water quickly
- The heat treated particles won't blow away in heavy wind
- Reduces field costs dramatically by providing years of performance

PREP50

Rain Check

- Turn muddy, soft ground into a firm, stable surface
- Absorbs 500% more water than clay
- 80% less labor and storage requirements
- Blends into your field, leaving no detectable residue
- Biodegradable, all-natural ingredients

RAIN40

Rapid Dry Drying Agent

These tiny granules are designed to quickly wick away excess water from your infield and keep your games playing safely and without delay.

- Specifically designed to absorb infield puddles
- Small, baked granular particles that increase absorption and insure durability, providing firm footing
- Improves soil consistency and helps reduce compaction

- Won't cake, harden or become slippery

QUICK50

RainOut

- Non-toxic field conditioner you can use before or after it rains
- Draws standing water and breaks up clumps of mud providing a smooth game-ready infield
- Improves drainage and absorption for great performance and minimal field damage

RAINOUT

A

A Mound Bricks

- Easy to install
- Extremely durable
- 312 bricks per pallet
- Provides great stability and performance for pitchers mounds and batter's boxes
- Bricks made of dark brown clay

MB312

B

B Mound Clay

- Eliminates problems by providing excellent footing for players
- Outstanding durability from high-performance clay reduces field maintenance
- Easy to install
- Great for repairs to troubled areas
- Dark brown color

MC40 (Dark Brown); MC40 (Fine Texture, Red-Brown Color); MC50PC (Unique Blue Gumbo Clay)

C

C Mound Slope Gauge

- Makes building and maintaining your baseball mound simple
- Alignment gauge made of one-piece, heavy-duty aluminum
- Bubble level (included) attaches for proper leveling
- Includes metal ruler for measuring mound slope drops
- Two support rods included, one of which is adjustable for leveling the gauge

MSG

D

D Batters Box Template

- Made of 1" square galvanized steel
- Adjustable for 3' x 6' (youth league), 3' x 7' (softball), and 4' x 7' (official baseball)

Football Accessories

A Goal Post Pads

Customize the look of your goal posts while increasing the safety of your players.

- Polyfoam core helps protect players from injuries resulting from impact with poles
- Pads come in pairs and are available in either 13" or 18" diameter
- Two styles of pads; Velcro closure and enclosed
- Custom lettering and logos available
- Meets NCAA and NFHS safety standards

Goal Post Pad Styles:

Velcro: A foam cylinder under a vinyl cover is closed with Velcro strips along the length of the pad. Designed like the pads used in pro football. Available in 6', 7', and 8' heights.

Enclosed Pad: Foam core is completely encased in vinyl to protect core from the deteriorating effects of weather and moisture. This feature extends the life of the pad and cuts down on installation time. Available in 6', 7', and 8' heights.

B Goal Post Paint

- Highly visible, DayGlo® super-bright fluorescent paint with a clean, semi-gloss finish
- Available in 1-gallon pails of Saturn Yellow or Blaze Orange Orange - D215151, Yellow - D215171

C Goal Post Streamers

- Help your kicking game with a set of four wind direction streamers
- Standard style is made of 18 oz. single-ply vinyl with grommets at end for attachment with a zip-tie. Available in rocket red
- Deluxe style is made of double-ply 18 oz. vinyl with heavy-duty hook at end for attachment to goal post. Super bright Rocket Red color is highly visible in all conditions. (shown at left)

Standard - GPS4, Deluxe - GPS4D

D Goal Post Paint and Streamer Kit

- 2 1-gallon pails of Waterborne Acrylic Primer
- 2 1-gallon pails of DayGlo® super-bright fluorescent paint with a clean, semi-gloss finish
- 4 orange goal post streamers

GPK

E Filteray® Goal Post Overcoat

- Improves weatherability and lightfastness of your goal post paint
- Clear overcoat which filters out the harmful rays of the sun to prolong finish and color of goal posts
- Provides an easy-to-clean, semi-gloss finish

FILTD1

Football Accessories

A

PlayersGoal®
Sports Equipment

A Advantage XI® Field Goal

PlayersGoal®
Sports Equipment

A Advantage XI® Soccer Goal

- The Advantage XI® aluminum square post and round faced soccer goals are designed with the end user in mind
- Built with high strength TIG welded aluminum
- Powder coated white finish ensures premium protection from the elements for years of competition
- Unlike other soccer goals, the Advantage XI goals utilize a one-piece back ground bar and unique welded in place net attachment system, eliminating complicated loops, vinyl strips or plastic parts to be lost and replaced and it's guaranteed for the life of the goal

PlayersGoal®
Sports Equipment

B Advantage XI® Mobility Kit

- The Advantage XI integrated on-board mobility kit eliminates both add-on wheels that are easily misplaced, and permanent side-mounted wheels
- Eliminates unnecessary add-on components ensuring safer movement of the goal

PlayersGoal®
Sports Equipment

C Advantage XI® Safety System

- Ensures safer play by providing a permanent anchoring system that blends into the field when not in use
- A below-ground, self-storing, rotating clamp/bracket firmly grabs the back bar of the soccer goal, ensuring that the goal remains firmly planted to the ground

- Aluminum seat, aluminum legs
- Shown with optional rubber foot pads

“PI” Portable Bench without Back

- Aluminum seat with galvanized steel legs

“PE” Surface Mount Bench without Back

- Aluminum seat with galvanized steel legs

“PG” Portable Bench with Back

- Aluminum seat with galvanized steel legs

“DGS” Portable Bench with Backrest & Shelf

- Aluminum seat, aluminum legs

Replacement Seating

Many old or unsafe bleachers can be retrofitted using the existing framework by adding aluminum planking to replace deteriorated wood planks and to close up unsafe gaps.

No more looking for broken or weak wooden planks when you renovate with low-maintenance aluminum.

We offer expert assistance in planning your renovation, and have a variety of aluminum plank profiles which can provide solid adaptation to most existing structures.

Update your old, unsafe bleachers to comply with today's building and safety codes.

If your old bleachers look like this...

We can make them look like this...

- A generous 52 oz. solution tank with an aggressive microfiber cleaning head means less time refilling
- Cleans up to 7,000 square feet per tank
- Comes with 2 replacement microfiber heads (also sold individually)

BM24KIT

Weight Room Mats

- Made of 100% recycled rubber, available in 3/4" or 3/8" thickness and many colors
- Non-absorbent mats will not harbor or promote bacteria growth
- Quick installation, requires no cement or adhesives

GymGuard® Floor Covers

Add years to the life of your gym floor!

Most gyms are multi-purpose so your gym floor has to hold up to a lot more than sports - dances, concerts, graduations, and other activities. It gets heavy foot traffic, stains, scuffs, impact from furniture and more. GymGuard® covers are built tough to protect your investment.

- Ultra-durable, 3 ply fabrics - PVC coated (on both sides) polyester mesh.
- Fire retardant to all standard fire codes - NFPA 701, CA Fire Marshal and UL 300
- Available in 15 colors and 5 weights
- Waterproof, rot and mildew resistant, anti fungal and anti-bacterial
- 10' wide sections - seams are strong and lay flat and smooth
- Custom-made to your gym floor dimensions
- Standard size available in 10' x 100' sections for quick shipment

EPA Registered

Available in:

- 1 gallon (4/case)
- 5 gallon pail

mPerial® Detergent / Disinfectant

Antimicrobial, Disinfectants, and Laundry

GamePlan-4-Sports PROFESSIONALLY APPLIED ANTIMICROBIAL PROGRAM

Antimicrobial program designed to protect the facilities and equipment your athletes, staff and trainers use each day.

Combat infection-causing microbial contamination and odor on all surfaces, equipment and fabrics within your sports facilities with **GamePlan-4-Sports**.

GamePlan-4-Sports is powered by **ÆGIS Microbe Shield®**, the most advanced, EPA registered antimicrobial available. The system is designed to provide a long-lasting layer of defense against a wide array of bacteria, mold and mildew.

The **GamePlan-4-Sports** treatment program is applied by mPact certified professionals. Its nanotechnology bonding chemistry will not rub off onto skin or leach into the air or ground - and it contains no heavy metals or harsh chemicals.

mPact-4-Sports DO-IT-YOURSELF PROTECTIVE TREATMENT

Do-it-yourself protective solutions specially formulated for sports facilities & equipment

mPact-4-Sports Multi-Purpose

Imparts a durable, invisible shield on sports gear and equipment which is protected from odors and stains caused by bacteria, mold and mildew.

Also Available: Antimicrobial Starter Kit for Locker Rooms

FIELDS OF EXCELLENCE®

Reach us by phone at 800-877-1500 or visit pioneerathletics.com/foe

A select number of outstanding fields will be recognized throughout each year and will be presented with:

- A vivid 4-color banner carrying the “Pioneer Fields of Excellence” designation
- A framed certificate that can be proudly displayed
- Exclusive entry into a random drawing for Pioneer-sponsored scholarships for use by the school
- Press releases to national and local news outlets informing them of your accomplishment

Stockton University
Galloway, NJ

Recognize the crew that makes your field a winner.

So much more goes into achieving excellence than just raw materials. A Fields of Excellence happens when the efforts of a talented crew, a well-maintained surface, and the best in paint, equipment and accessories all come together - just like a great masterpiece comes from partnership between artist, canvas and paint. Make sure your above-and-beyond-the-call-of-duty crew and your great fields get the recognition they deserve. Apply to the Pioneer Fields of Excellence Program.

What is the Pioneer Fields of Excellence Program?

This nationwide program recognizes hardworking individuals, schools and communities for their dedication and effort in keeping fields and sports facilities looking their best. It's no museum, but it is a lot like a hall of fame. It's the space we've created to honor great work and to foster school pride and community spirit in the process.

Who is eligible?

Any institution or organization that regularly maintains an outdoor athletic field can apply. Take a look at your field. Is there a maintenance crew that should be recognized for the care they give it? Do you know an unsung hero on the sidelines who keeps the field in excellent shape? Does it have a unique design or any special features? If you've answered “yes” to any of these questions, then apply today!

Apply for the Pioneer Fields of Excellence Award Today!

Call or click! Reach us by phone at 800-877-1500 or visit pioneerathletics.com/foe to download the application and upload your field photos.

On the application, describe in a short essay what makes your facility special. Print your completed application and have it signed by your facility manager. Include tips on keeping your facility in excellent shape. Send along digital photos of the field (all photos become the property of Pioneer). It's that simple.

Eliminate the need to remeasure your field

**UV-resistant,
mower resistant
& highly visible.**

**Available in six
colors.**

**Spiral cone base
remains in place
& is difficult to
remove.**

- Use to mark sprinkler heads and other potential field hazards
- Eliminates the need to re-measure natural grass fields prior to painting
- Can be used on sports fields for football, soccer, lacrosse, field hockey, rugby, baseball/softball, track and field, and golf
- Highly visible and mower resistant
